8.05.010 Purpose and findings.

The purpose and intent of this chapter is to: (1) protect public safety by curtailing or eliminating the extraordinary number of false alarms which prevent, hinder, or delay public safety personnel from responding to legitimate calls for public service; (2) recover the costs associated with responses to false alarms as the expenditure of such public funds constitutes an unlawful gifting of public monies; (3) stop the current subsidization of private business with public tax dollars; (4) reduce or eliminate the instances of false alarm activations in the city of Newcastle; and (5) license the alarm industry in the city of Newcastle. The recitals set forth in the preamble to the ordinance codified in this chapter are hereby incorporated by reference as if fully stated herein. (Ord. 2004-286 § 2).

8.05.020 Exercise of regulatory police power and revenue license power.

A. The provisions of this chapter shall be deemed an exercise of the city's police power to promote the health, safety, and welfare of the general public, and are not intended to protect individuals or create or

otherwise establish or designate any particular class or group of persons who will or should be especially affected by the terms of this chapter. This chapter neither imposes nor creates duties on the part of the city or any of its departments, and the obligation of complying with the requirements of this chapter, and any liability for failing to do so, is placed solely upon the parties responsible for owning, operating, monitoring, or maintaining monitored **alarm** systems.

B. To the extent that the city may not exercise regulatory power with respect to the licensing requirements of this chapter, the provisions of this chapter pertaining to licensing shall be deemed an exercise of the power of the city of Newcastle to license for revenue the privilege of engaging in business in the city. (Ord. 2004-286 § 2).

8.05.030 License required.

A. It shall be unlawful for any person to connect to a monitored **alarm** system in the city of Newcastle, or to monitor such an **alarm** system, directly or indirectly, via telephone, cable, wire, wireless, video, electronic, or other form of connection to or by any outside entity or source without first having obtained a license or licenses required by this chapter.

B. It shall be unlawful for any person to permit to be used or operated any monitored **alarm** system in the city of Newcastle that is connected by means of telephone, cable, wire, wireless, video, electronic, or other form of connection to any outside entity or source that is not licensed or is not monitored by a person licensed pursuant to this chapter.

C. The licenses required pursuant to this chapter are separate from and in addition to any licenses required by any other chapter of the Newcastle Municipal Code, including, but not limited to, Chapter 5.15 NMC, Business Licenses.

D. It shall be unlawful for any person to avoid any of the licensing requirements of this chapter by subcontracting for monitoring services or making any other contractual or business arrangement that has the effect of avoiding the requirements of this chapter. (Ord. 2004-286 § 2).

(Ord. 2004-286 § 2).

8.05.070 Duty of licensee.

A. It shall be the duty of all licensees granted licenses under this chapter to comply with all applicable regulations in this chapter or elsewhere, and the failure of any licensee to do so shall constitute, but shall not be exclusive grounds for, suspension or revocation of any license and shall constitute a violation of this chapter.

A written notification will be provided to the alarm system monitoring company, alarm system user, or the nonmonitored alarm system user, providing advanced notice of such nonresponse status. (Ord. 2004-286 § 2).

8.05.110 Suspension or revocation.

The director shall have the power and authority to suspend or revoke any license issued under the provisions of this chapter. The director shall notify the licensee, in writing by ordinary mail, of the suspension or revocation of the license and the grounds therefor. Any license issued, or application therefor, under this chapter may be denied, suspended, or revoked based upon any violation of this chapter. The director shall also immediately notify the police department of the revocation, and no police response may be made to any alarm devices monitored by the alarm system operator until all suspended or revoked licenses are reinstated. No suspended or revoked license may be reinstated without prior payment of all license and alarm response fees due and outstanding. (Ord. 2004-286 § 2).

Licensees who fail to pay assessed response fees within 60 days may have all licenses and registration revoked by the director.

C. Any license suspended or revoked by the director shall not be reinstated without payment of all outstanding balances for licenses and false alarm response fees.
