

Froula Alarm
Systems, Inc.
introduces
VISTA-21iP
alarm panel from
Honeywell.

The feature-rich control delivers the same innovative end-user benefits and robust system capacity you've come to expect with VISTA panels – like attractive alpha

keypads, 48 zones of protection, wireless keyfobs and panic buttons, plus a whole lot more!

Built-in Internet Communicator

The built-in Internet Communicator was developed to take advantage of the growing use of the Internet for security communications. It provides the most sophisticated reliable data security. You can count on this revolutionary technology to deliver the most secure, reliable monitoring solution available.

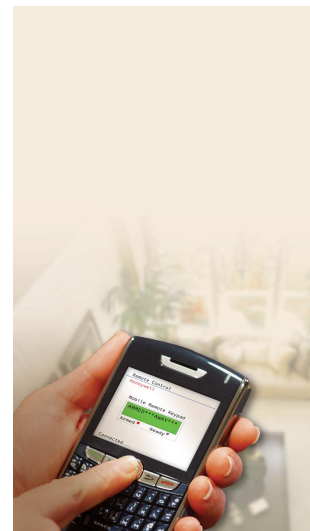

VISTA-GSM Digital Communicator

Honeywell's VISTA-21iP with the VISTA-GSM combines the dialer, Internet and GSM in one cabinet. Our exclusive Quad-Path technology - which provides four paths of communication using the dialer, the Internet, GPRS and SMS - delivers added reliability and security.

The primary communication path is selectable - offering a convenient, cost-efficient way to communicate. Should the Internet be selected as the primary path and become unavailable, the unit can communicate via the GSM network.

VISTA-21iP is Total Connect-ready.

Honeywell's *Total Connect* digital communications solutions provide you with exciting options for connectivity, control and notification. When combined with Total Connect, the VISTA-21iP's value-added services are unmatched!

Remote System Control

You can conveniently control your system and receive information through any SMS text-messaging device - including cell phones and PDAs.

Your can:

- Request system status
- Bypass specific zones
- Arm or disarm
- Control outputs

Virtual Keypad

At the heart of **Total Connect** is the unique virtual keypad, which can be accessed via a secure website. Whether at home, in the office or on the road, you can control this keypad via PCs, compatible PDAs, web-enabled cell phones and more to stay connected to your home. Since you can log in from any remote location, it provides the ultimate convenience, control and flexibility.

Notification of System Events

If you require detailed reporting and customized communications, VISTA-21iP and **Total Connect** are ideal. They can report on a wide variety of system events - sending personalized notification via e-mail to any capable device, including cell phones and PDAs. In addition to system status,

you can be notified of activity occurring in various areas of the home, including:

- A gun or liquor cabinet
- A kitchen cabinet with household chemicals
- When their child has arrived home from school

Call us today at **206-575-1962** and see what all the excitement is about. Join us as we usher in the 21st century to your home security system.
