

Keyscan CCTV Integration with Dedicated Micros DVRs

Access Control & CCTV Integration
In 10 minutes or less!

*Sample diagram only. Refer to Keyscan and Dedicated Micros for connectivity and configuration options.

- Call up live video or historical alarm events straight from the Dedicated Micros DVR using Keyscan's System VII Access Control Management Software
- In only 10 minutes or less you can integrate Keyscan's access control system with Dedicated Micros video surveillance solution.
- Integration is made easy and flawless with Dedicated Micros NetVu Connected DVRs including; ECO (9/16 channel), SD, Digital Sprite 2 series DVRs
- System VII connectivity to the Dedicated Micros DVRs is established with direct connect using a crossover cable or via LAN/WAN connection
- Control PTZ functions, define alarm triggered camera activations, create camera pre-sets and much more all from Keyscan's System VII Access Control Management Software.

Full CCTV/DVR Controls

Keyscan & Dedicated Micros Powerful CCTV Integration.

CCTV Integration in 3 simple Steps

- 1) Create a Password in the Dedicated Micros DVR to permit System VII to automatically login to the unit.
- 2) Set up the IP address for the Dedicated Micros DVR within Keyscan's System VII Access Management Software
- 3) Load the Dedicated Micros drivers provided with the System VII Access Control Management Software

**And you are up and running!
 It's just that easy!**
