- [12]Primary Sub ID = last 4 digits of Account #

### **7720P Emulation Template for Alpha Keypads**

**3. If the unit was activated above step 1, status light will come on.**

- Power cycle the GSM-R.
- Wait until the signal strength LEDs come on.
- Press tamper 3 times quickly to register.
- When only yellow light is blinking and green and red are off, you're done.
- If the green light stays on, registration did not occur. Try again.
